NGO TUAN VU

Mobile Developer | Flutter • React Native • iOS (Swift)
4+ years of experience in building scalable mobile applications in Banking, Fintech, Trading, and Super App domains.

SUMMARY

Mobile Developer with 4+ years of professional experience developing and maintaining high-quality mobile applications using Flutter, React Native, and iOS (Swift/SwiftUI). Strong understanding of Clean Architecture, scalable application design, and modern mobile development practices. Proven ability to work as a key contributor in complex projects, with a responsible, communicative, and problem-solving mindset.

TECHNICAL SKILLS

- **Languages:** Dart, JavaScript, Swift
- **Frameworks:** Flutter, React Native, React.js, SwiftUI
- **State Management:** BLoC, Redux, Redux-Saga
- **Architecture & Patterns:** Clean Architecture, OOP, Super App, Micro-Frontend
- **API & Backend Integration:** RESTful APIs, Authentication, Error Handling
- **Version Control & Collaboration:** Git, GitHub, GitLab, Bitbucket, SourceTree
- **Project & Work Management:** Jira, Confluence, Trello, Agile/Scrum
- **Tools:** Visual Studio Code, Android Studio, Xcode, Postman
- **Testing:** Unit Tests, Integration Tests
- **iOS Tooling & Libraries:** CocoaPods, Swift Package Manager (SPM), Third-party SDKs
- **AI-Assisted Development:** ChatGPT, GitHub Copilot, Trae

WORK EXPERIENCE

MOBILE DEVELOPER

UNO BANKING APP (Philippines) | 08/2025 – Present
Technology: Flutter, Firebase, Dynatrace, AppsFlyer, MoEngage, Postman
Team Size: 5 Mobile Developers

- Built and maintained a large-scale Banking Application for the Philippines market using Flutter.
- Applied Clean Architecture to ensure scalability, maintainability, and testability.
- Developed core banking features including Loans, Savings, and Time Deposits.
- Integrated analytics, monitoring, and crash reporting tools to improve app stability and user insights.
- Collaborated closely with backend and QA teams in an Agile/Scrum environment.

MOBILE DEVELOPER

DI-HDBANKING SUPER APP | 11/2024 – 07/2025
Technology: React Native, Swift, Kotlin, Firebase, MoEngage, AppsFlyer
Team Size: 15 Mobile Developers

- Built a scalable Super App using React Native, enabling multiple teams to develop and deploy mini-apps (micro-repos) within a host application.
- Handled integration with third-party services including Firebase, MoEngage, AppsFlyer, Sentry, and Crashlytics.
- Implemented Push Notifications, Local Storage, and Remote Config.
- Collaborated across teams to ensure seamless integration and deployment workflows.

MOBILE DEVELOPER

PHS TRADING APP | 10/2023 – 05/2024
Technology: Flutter, TradingView, Real-time Data Handling
Team Size: 8

- Developed features related to securities trading, orders, and real-time market data.
- Ensured smooth and reliable performance of complex, data-intensive features.
- Collaborated with team members to review code and improve overall code quality.
- Strictly followed Clean Architecture and best practices for large-scale applications.

MOBILE DEVELOPER

GOLDEN SPOONS - KMSS | 12/2022 - 4/2023
Technology: Dart/Flutter
Team members: 1

- Troubleshot issues, fixed bugs, and maintained existing application features.
- Monitored and optimized application performance in production environments.
- Took full ownership of the mobile application lifecycle.

MOBILE DEVELOPER

KAYPAY - KMSS | 12/2021 - 11/2022
Technology: Dart/Flutter
Team members: 5

- Build from scratch a Flutter Application with State Management
- Working on eCommerce, Buy now Pay later business, payment with e-wallet, atm, tracking event, tracking user, and report crash app.
